

Organic Sour Cherry Juice

100 % fruit juice
Unsweetened fresh juice from controlled organic cultivation.

Useful information:

Sour cherries (*Prunus cerasus*) are among the most popular native fruits. Deep dark red and extremely juicy, they are a pleasure for young and old from July to August. They only develop their best flavour once they have fully ripened and are also an excellent source of vitamins, phenols and other plant nutrients. Our Organic Sour Cherry Juice excites with its refreshing, fruity-sour taste. It is produced as a naturally pure, unsweetened press juice from sun-ripened, freshly harvested organic sour cherries. Typically, sour cherry juice is drunk straight, but can also be enjoyed mixed with water or other fruit juices.

No added sugar or preservatives.
