### Collagen Powder for dogs and cats

Feed for the supply of the musculoskeletal system

Collagens are particularly important for the function of joints, as these structural proteins are a major component of tendons, joint cartilage and connective tissue. A sufficient supply of high-quality protein is therefore important for normal functioning of the musculoskeletal system. Tierlieb collagen powder supports the nutrient supply of joints and muscles and thus contributes to maintaining the joy of movement into old age. Our tested, biologically active collagen hydrolysate is particularly well absorbed and utilised by the body.

- easily digestible, natural collagen peptides with high bio-availability
- to supply muscles, joint cartilage, tendons and ligaments
- for improved enjoyment of activeness
- good compatibility and acceptance
- obtained from food raw materials

#### Composition:

100 % natural collagen (obtained from the skin of cattle by hydrolysis).

#### Analytical contents:

Protein min. 91 %.

Metabolisable energy: 13.2 MJ/kg (315 kcal/100 g)

Aminosäure	Anteil*
Alanine	8.6 %
