

Hyaluronic acid Shampoo

For supple, shiny, beautiful hair

This exclusive shampoo contains a conditioning formula where hyaluronic acid binds tightly to the hair. Studies have shown that hyaluronic acid has excellent properties for dry, stressed hair. It forms a protective layer, provides ample moisture and repairs damaged hair.

The result? Your hair glows with a new shine and feels supple and smooth. Your scalp benefits as well, as tension caused by dryness can be eased. Added caffeine vitalises and stimulates blood circulation and hair growth.
