

## „After-bite“ Roll-on Stick

cools and soothes the skin after insect stings

„After-bite“ cools and soothes the skin after insect stings and bites. The included polidocanol provides relief of itching and pain. Panthenol supports the soothing effect and nourishes and relaxes the affected skin area

**Application:** Simply apply to the affected area. Repeat application if necessary.

Keep away from eyes or mucous membranes.

**Ingredients:** Aqua, Alcohol denat., Glycerin, Laureth-9, Panthenol, Propylene Glycol, Menthol, Mixture Of Essential Oils (Limonene, Linalool, Eugenol, Citral, Geraniol – from natural essential oils).
