

Sanct Bernhard Sport Warm-up Massage Oil

Supports your warm-up

Warm-up Massage Oil promotes the skin circulation and creates a mild warming sensation. The warm-up phase is supported by a massage with the warming oil and the musculature is prepared for sporting exertions. Relieves sore muscles and tension. The high-quality and effective herbal extracts and essential oils, like peppermint, eucalyptus, wintergreen and 24-herb oil, strengthen the relaxing warming effect and promote blood supply to the skin.

Apply the massage oil evenly and massage in to enhance its effect. Almond and jojoba oil make the skin feel supple and regulate the skin's natural moisture content.

The massage oil should not be used in cases of known hypersensitivity to daisies. Not suitable for children under 6 years of age.
